

WHAT IS CLAIMED:

1. A printing method, comprising:
displaying a plurality of selectable features to a user,
each feature corresponding to a special page type of a print job;
presenting a set of selectable options corresponding to a particular feature
if that feature is selected; and
simultaneously displaying a summary view window for displaying a
summary of the selected options.
2. The method of **claim 1**, wherein the summary view window also
displays a range of pages corresponding to the selected options.
3. The method of **claim 1**, wherein the features include at least two of
covers, exception pages, chapter starts, and page inserts.
4. The method of **claim 1**, wherein the printing method is part of a
specialized printing application.
5. The method of **claim 1**, wherein the printing method is part of a print
driver.
6. The method of **claim 2**, further comprising a window for displaying
details of the selected options.
7. The method of **claim 6**, wherein the details of the selected options is
shown when the user selects the corresponding range of pages from the summary
view window.

8. The method of **claim 2**, wherein the range of pages includes exactly one page.

9. A printing method, comprising:
simultaneously displaying a plurality of selectable features, each feature corresponding to a category of special pages;
receiving a selection of a first selectable feature;
displaying a child window including selectable options of the first selectable feature;
receiving a selection of at least one selected option; and
displaying a summary view window,
wherein the summary window includes the at least one selectable option that the user has selected.

10. The method of **claim 9**, further comprising receiving a first range of pages corresponding to the at least one selected option, and
wherein the summary window also lists the first range of pages corresponding to the at least one option.

11. The method of **claim 10**, wherein the range of pages includes exactly one page.

12. The method of **claim 9**, wherein the features include at least two of covers, exception pages, chapter starts, and page inserts.

13. The method of **claim 9**, wherein the printing method is part of a device GUI.

14. The method of **claim 9**, wherein the printing method is part of a print driver.

15. The method of **claim 9**, further comprising an option window for displaying the details of the at least one selected option.

16. The method of **claim 15**, wherein the details of the at least one selected option is shown when the user selects the corresponding range of pages from the summary view window.

17. A printing GUI, comprising:
a plurality of tabbed pages, wherein each page corresponds to a special page type of a print job, including
a first tabbed page includes a first set of selectable options relating to a first special page feature and
a second tabbed page includes a second set of selectable options relating to a second special page feature, and
a third tabbed page includes a summary view window for displaying a summary of the first set of selected options and the second set of selected options.

18. The printing GUI of **claim 17**, wherein the first special page feature includes at least one of covers, exception pages, chapter starts, and page inserts.

19. The printing GUI of **claim 17**, wherein the second special page feature includes at least one of covers, exception pages, chapter starts, and page inserts.

20. The printing GUI of **claim 17**, wherein the plurality of tabbed pages includes at least five tabbed pages.

21. The method of **claim 17**, wherein the printing method is part of a device GUI.

22. The method of **claim 17**, wherein the printing method is part of a print driver.
